

# YVONNE THOMPSON

## *The Innovative Leader™*

Learn how to lead from your core values to be an influential and dynamic leader. Yvonne uses her unique philosophy and personal experience to show you how to engage with others to inspire confidence, action and commitment.

Yvonne's passion is helping organizations to build sustainability and capacity through New World Leadership strategies – a unique innovative approach to leadership, which Yvonne has developed through experience and research.

An engaging and energetic speaker, Yvonne translates her knowledge and experience of HR and leadership strategies into meaningful presentations for audiences of all sizes. She brings her message alive by drawing on stories from her three decades of experience and links her stories to her philosophy of New World Leadership. This is Yvonne's strength: linking theory to action – and leaving the audience with practical steps to implement *tomorrow*.

### **Leadership for a New World**

Forward-thinking leaders are resoundingly saying “Yes!” and are consciously and deliberately moving from mechanistic to holistic styles of leadership. Yvonne's dynamic presentation takes the audience through a newly adapted Holistic approach to organizational culture and leadership approaches. This session is based on her new book, “Leadership for a New World, The Organic Approach to Employee Engagement”.

### **CHAOS!** **Navigating the Whitewater**

What if you could create an organization where everyone was excited about change...on the lookout for change and opportunity... Where innovation and creativity flourished.

The primary goal of the session is to provide a thought-provoking look at our ever-changing world and the interconnectedness of stakeholders. How does one part of our business impact another? How can we build an organization that welcomes and embraces change, and through this initiative, creates an environment that is flexible and adaptable? We can choose to cling to the bank or jump on the raft and go for a ride.
