

Safety Leadership, What's Next?

Session Title: *Safety Leadership; What's Next?*

REPUTATION: National

LOCATION: Winnipeg MB and Victoria BC

Energize, Engage and Empower your safety delegates to realize the power of Self-Leadership, Self-Responsibility and Self Reliance. This lively and engaging presentation takes a quick look at the history of safety leadership and explores the future possibilities when we each take a personal and committed role to LEADING-SELF. If we keep doing the same thing we cannot expect to get different results. We can improve safety results through Leading-Self while becoming a fabulous role model for others. This presentation connects the dots from Leadership to Results. The focus is on personal SELF-Leadership that creates a work environment based on responsible self-management.

Delegates will explore and discover:

- ⊕ *Where we have been in our safety roles.*
- ⊕ *Where we are going?*
- ⊕ *Connecting to the newest employee in a way that they can receive important safety information?*
- ⊕ *Shedding the Victim Mentality*
- ⊕ *Personal & Professional Alignment*
- ⊕ *Re-engage, Self-direct and Empower*
