The Process

Registration for this session must take place 3 weeks prior to the session. This allows each participant to complete his or her own personal EQi-2.0 inventory. Each attendee is then contacted by one of our qualified faculty members in order to provide a personal debrief one on one confidential session. The day of the training session we review all sub-scales measured by the EQ assessment and explore ways in which these affect our leadership style and interactions at work. We also explore how to enhance specific Sub-Scales as desired.
